Condition Check

- episode 117
 - 3453, human was given, should be interactive
 - 3684, interactive was given, should be semi
 - 3687, interactive was given, should be human
 - 3719, no was given, should be interactive
- episode 109
 - 3469, human was given, should be no
 - 3260, interactive was given, should be semi
- episode 101
 - 3469, no was given, should be human

ID alignment, duplicated rows

Episode 117 post and delayed

- 107 post:
 - id 3441, no name in tracker, but completed 117 post: **check with Kelsy -> change id to 3453 for post 117**
 - [dup] 3368, 3718 with later dates should be moved to df_Delayed117
- 107 delayed:
 - [dup] 3411 Samantha should be removed, no values
 - [dup] 3425 KH should be 3426

- [dup] 3430 and 3278 with earlier dates should be moved to df_Post117

Episode 109 post and delayed

- 109 post:
 - id 3395 3397 3398 3399 3396 3403, completed 109 post, but not in tracker. their start dates were 2022-11-01, 2022-11-03, 2022-11-08. **Was this before the shut down? Yes**
 - [dup] 3425 KH should be 3426
 - [dup] 3437 and 3278 with later dates should be moved to df_Delayed109
- 109 delayed: id 3348 3717, in the tracker, but not completed 109 delayed
 - id 3348 dropped from the study after 117
 - id 3717 did not give delayed bc previous session did not administer post test (technical difficulties)

Episode 101 post

- id “3397” “3395” “3399” “3398” “3396” “3400” “3392” “3388” “3382” “3389” “3403” “3390” “3398” “3399” “3356” “3396” “3401” “3334” “3362” “3358” “3402”, completed 101 post, but not in the tracker. Their session 1 started in 2022/11 **Was this before the shut down? Yes**
- [dup] 3399, 3398, 3396 have dups and both rows should be removed
- [dup] 3289 and 3681 with earlier time should be removed

Quils

Duplicated rows:

- “3321” “3321” “3335” “3335” “3342” “3342” “3344” “3344” “3394” “3718” “0” “0” “3394” “3718” – keep those with later dates. Earlier dates were done before the shutdown

Naming convention for post test

- episode number
- type of test (post, delayed)
- question number
- level (initial, reprompt, na)
- type (choice, text, constructed response [cr])

Examples:

- 109_post_q1_init_choice
- 109_post_q1_init_text
- 109_delayed_q1_rpt_choice
- 109_delayed_q1_rpt_text
- 109_delayed_10a_cr

Notes:

- Post 101, q12-q14 are vocab items

Scoring

Episode 117 post and delayed

Scores:

- Full score for non CR items: 26 points

Notes:

- q2: probably needs human review
- q9: do kids have to use “molt” in order to be correct at the initial level? (yes for prelim analysis)
- q13: is “tight” or “small” correct for initial level (no for prelim analysis)
- q14: is “woods” “jungle” “grass” correct? (yes for prelim analysis based on last round criteria, inconsistency across RAs)

Episode 109 post and delayed

Scores

- Full score for non CR items: 14 points

Notes:

- q9: probably needs human review (for prelim analysis, only used category)

Episode 101 post

Scores:

- Full score for non CR items: 22 points
- Full score for vocab items: 8 points

Notes:

- Synonyms considered correct for goopy? thick, gooey, slimy, sticky, slow?
 - q4: is slimy, gooey or *slow* correct? (slimy and gooey considered correct for prelim analysis, not slow)
 - q6: ketchup + synonyms of goopy
 - q7: same as above
